Any presentation by participants of graduation exercises is the private expression of the individual participants and does not necessarily reflect any official position of the District, its Board, administration, or employees, or indicate the view of any other graduates.

The Board recognizes that at graduation time, and throughout the course of the educational process, there will be instances when religious values, religious practices, and religious persons will have some interaction with the public schools and students. The Board, however, does not endorse religion, but recognizes the rights of individuals to have the freedom to express their individual, political, social, or religious views, for this is the essence of education.
